RootEd Teacher Experience

Contact our team to learn more about our educational support tools and explore how we can work together to create a meaningful impact in your classroom.

Here's what the RootEd team can offer you!

1. **Curriculum Design**
   Our educational tools are flexible, ready-to-use resources designed by former teachers and creative professionals. These materials align with various curriculum areas, making classroom implementation simple and effective.

2. **Co-Teaching Support**
   When you collaborate with RootEd, you gain a dedicated partner who works alongside you to integrate engaging projects seamlessly into your curriculum and pacing guides. We ensure every activity is educational, impactful, and tailored to your classroom's needs.

3. **Design & Printing Services**
   RootEd provides professional graphic design services to transform students' work into visually compelling creations that truly stand out. Once the designs are finalized, we take care of the printing process, delivering a polished, professional product.

4. **Storytelling & Documentation**
   RootEd supports teachers and students in documenting the creative journey, highlighting the process and showcasing the final outcomes. This storytelling approach preserves the experience for future reflection and fosters a sense of pride in the students' work.

5. **Community Connections & Funding Support**
   RootEd connects teachers and students with community partners, local experts, and potential sponsors. These collaborations provide valuable insights, help identify opportunities, and ensure meaningful contributions to the community. Additionally, we assist in securing funding to support classroom projects, fostering stronger connections and removing financial barriers.

Reach out today to discuss how we can tailor our services to meet the needs of your classroom!
